**Congresses to be Held in New
England and the South—
Meeting the Transports**

During the reunion meeting at Littlefield (Colonel Part) the Commander was presented with an empressed memorandum celebrating the victory of the Salvation Army during the past year, and expressing the affection and confidence of his Staff and Officers throughout the country. The presentation and the response of the Commander brought a very tender spirit into the meeting, and it is the universal opinion that the meeting was one of the finest in spirit we have had at the National Centre in many days.

Immediately following the Philadelphia reunion, the new hostel which occupies part of the great memorial building was formally dedicated. Colonel Holz and his assistants have wrought wonders in the way of altering and fitting up the building, and it certainly would be most difficult to excel all the appointments.

As we write there is great anticipation and expectation concerning the New England Congress to be held in Hartford. The programme is a long and distinguished one, and includes besides Officers' Councils, the dedication of probably the finest Divisional Headquarters in this country, and a large number of church meetings.

The Southern Congress is also close at hand, and this also will be made especially notable by some dedications. Just before the opening of the Congress the big soldiers' and sailors' club will be formally and entirely opened to the public, while during the Congress hospitals at Atlanta and Montgomery will be dedicated. These dedications will be followed by a series of Councils at which most of the Officers from the South will be present.

During the week a very special meeting, including only about a dozen people, was held in the Commander's office, when former Governor Tener, on behalf of the general organization of the Elks, represented the Commander with a

check for \$500,000. This splendid expression of confidence in the Salvation Army is due largely to the effective work of Colonel McIntyre.

The several Officers who have been set aside to meet the incoming transports report a great deal of work, but a great deal of pleasure.

return, is meeting the boys as they return to their native land. It is especially pleasing to them to see the soldiers with one accord so heartily friendly to every effort they put forth. Many boys on each transport desire to inform their friends; therefore our Officers leave the dock always with a great sheaf of telegrams to be forwarded to all parts of the country. We understand that after leaving one transport last week 400 telegrams were sent.

Negotiations are also under way to provide soldiers' and sailors' clubs in a number of the large centres. In Boston, Baltimore and Detroit these negotiations are well advanced, and it will not be long before each of these cities has its own institution fully equipped and ready for service.

SASKATOON COMRADE

Is Working Hard for God in France
—Attends Hui Meetings and
Helps Seekers—Plays in
the Band

"It is with great pleasure I write a few lines to you in answer to your welcome letter," says Pie Wm. Spies, in a letter to Comrade Sawton from the 2nd Canadian General Hospital in France. "I thank you for the parcel I received," he continues, "and I must say that the contents were very much enjoyed by myself and those who shared in a taste of the good things. We always have the comrade with our parcels in sharing them up as far as they will go and they are always appreciated so much when they come from Canada."

"I am glad to say I am still looking upward and pressing onward, kept daily by the power of God. We have our great desire to serve God myself and pass the message of life on to those who have not yet made their choice."

Forty Seekers

"We have a Salvation Hut here and some very good meetings are held in it. We had a visit recently from Comrade Huggins. A large crowd attended to hear him and during the prayer meeting about forty men knelt at the penitential altar."

"Those of us who were Salvationists, and some other Christian men, dealt with them and helped them to get into the Kingdom."

"We have had several visits from Lieut. Colonel Haimes and Staff-Captain May Booth, which have been so much enjoyed. We have with the same results, numbers seeking Salvation. So you can realize what lovely times we have had."

"We have such devoted Officers as—Captain Leal and Captain Peat, both real workers for God. When my Brother B. H. Huggins was here, his music was much enjoyed by the boys."

"Seeing that I had been in the Saskatoon Corps Band for about six years; previous to enlisting, I am glad to be able to be of service here as a Bandman."

"You will be glad to know that we have a Bible Class on Tuesdays, which is well attended by the young men. We have had as many converts as well as the older Christians—thirty-six men to a class. Great blessing has come to us through our studies in the Gospel of John. We always conclude with a good warm prayer meeting and go away feeling stronger in soul and better able to stand for the things that are good and pure."

"The Hut is a lovely warm building, with a fine recreation room and a large devotional room. It reminds us of home."

"God willing I hope to be soon back in good old Saskatoon, and might say I enlisted on March 5, 1915, and have been in France three and a half years."

WITH OUR BOYS 'OVER THERE'

Major Walton Accompanies the Army of Occupation into Germany
—Is Appointed Chaplain at Reinforcement Depot in France

"SINCE last I wrote I have had quite a journey," writes Major Walton. "I went from Frensham Pond Camp to Rhyl in North Wales, but was only there two weeks when I had orders to report at London Headquarters for overseas. I travelled from Rhyl overnight and reported at 9 a.m. Friday, and was in France in the afternoon. I had rather a surprising experience as I was allowed to go right through the lines."

"I am doing my best for the boys here. I went up through Eaples, St. Vaast, Valenciennes, Mons, Liege, Namur, Spa, St. Vith, Germany, then on to Blankenheim and Schleiden, where the Corps was resting when I left them. I returned through Duren, Louvain and Brussels, then across country to Liege again and down through Mons, Rheims, and Arras to St. Paul and on to where I am now."

"I tramped some part of the way and sometimes rode on trains, motor lorries and cattle trucks, sleeping here and there. I was very tired when I finally arrived at the Depot, but I am glad had the opportunity of going with the troops."

"I met quite a number of the boys from Montreal and Toronto, but missed my own boy by a day. He left Montreal for his leave in England the day before I arrived in the town. There is quite a lot to do as of course the boys are practically idle now most of the time, but it is a pleasure to me to be of help to them. I am keeping pretty well and am determined to do my best in the interests of God's Kingdom."

Gillivray had written her about visiting her boy in the hospital, and his interest in the boy's welfare. Another soldier's soldier stated that he had enjoyed the privileges and comforts of the Salvation Army boys and had received refreshments when he visited."

Sergeant P. R. Deatly says the Salvation Army is a friend to all, whether they have money or not. "If a soldier is hungry and has no money he is sure to receive a welcome from the Salvation Army, and is well looked after."

Speaking of the Salvation Army hostels in England, an Orilla soldier said he stopped at one, where the rate was fivepence a night and where the meals were of good quality and very cheap, and there was always a warm welcome for the tired Tommy."

DOVERCOURT BANDSMAN

Was in First Canadian Band to Enter Germany

"We have been having very interesting times lately, writes Bandman Jack Robbins from Germany. "We crossed the Rhine on Friday, Dec. 12th. The people are fairly decent to us though they seemed a bit scared when we first arrived. We are stationed at Lind, near Cologne. We marched through Cologne. It is so close to a big city and has a lovely cathedral."

"I received a nice parcel from the Corps (Dovercourt) and also a fine letter from Adjutant Eastwell." Our comrade is in the 3rd Battalion Band, 1st Canadian Infantry Brigade.

RETURNED MEN

Express Their Appreciation of the Splendid Service Rendered by the Salvation Army

The best testimony of the value of the services rendered by the Salvation Army to the boys overseas is in the form of many letters that have reached Headquarters.

Some interesting extracts are as follows. A Montreal lad says: "I am writing this letter to you from these large and warm huts; it will rest about three hundred soldiers; they try all they can to make us comfortable."

"A Catholic lady told one of our collectors," says Ensign Weeks of Sault Ste. Marie, "how Major Mc-

that I have two full Battalions, about 5,000 men, to look after. I had a splendid time yesterday in the parade services. The Colonel of the Engineers is from Kingston and has recollections of seeing me there with the Salvation Army. Both Commanding Officers gave me a splendid reception, and when I told them I was a Salvationist they were simply speechless to me."

A NOBLE WORK

Salvationist Sergeant Expresses His Personal Gratitude for What Army Has Done for the Boys

"After an absence of about three and a half years from duty I am again in the Corps. I take this opportunity of once more getting in touch with the glorious organization I love so much," writes Sergeant King from Woodcote Park, Epsom, Surrey.

Magnificent Trust

"Thank God for the magnificent trust reposed by the British Empire (as an Empire). May the day soon dawn when the Children of God may be privileged to lead every soul, equipped with our great and mighty Empire to a knowledge of the Grace of God as it is in Christ Jesus. I look with pride on the noble work that has been carried out by our Salvation Army in the various theatres of war. I have drunk their tea at Mont St. Eloi, ridden in their ambulances, and severely injured at Lens, been called in-Hospital by our Officers both in France and England, and to-day there is none more grateful and more appreciative of their work of sacrifice than myself. I am proud to be identified with the great Salvation Army."

Look Forward to Home

"We are looking forward to being home again in the near future, and the one desire of our hearts is that we may again have the privilege of lifting up the Banner of Love, and telling out in my humble way to the millions of sinners who are in the world to 'save sinners.' I have been in the past, as you will recollect, Young People's Sergeant-Major for a number of years. God honoured and wonderfully blessed our work at Lisgar. Associated together in His cause there was the finest body of Junior Workers I have ever been my lot to meet. I do not know whether on my return I shall be able to fill that honoured position, but if not I am equally able for this particular work, which will not prevent me living for God, and endeavouring to throw forth an influence that shall tend to lead others to His side."

SOLDIER AND SAILOR

Visit Social Headquarters in London (England) with Happy Result

Among recent callers at the Men's Social Headquarters at Whitechapel were a Canadian soldier and a sailor well known as the former host of a leading hotel in Adelaide, Australia, and also as being employed at a famous public house in Gordon Road, London. The former, who arrived from a convalescent hospital on twelve days' final leave, desired to see his old spot where he was converted some years ago, and in the office of the City Colony Chaplain, Brigadier Linacre, he met the old sailor, who was in joy in his joy in his rheumatism.

"One battery after another swept through the patch. It took just nine minutes to strip the three-acre patch clean."

QUICK HARVESTING

"The soldiers of the Twenty-fifth Field Artillery, tried their skill at policing a cotton field along the Jacksonville road the other morning."

"The regiment had hiked five miles and was running ahead of its schedule, when, coming to a cotton field, the big-hearted colonel saw an opportunity to give his men some diversion and at the same time fill an old negro population of the county a topic of conversation that will be handed down from father to son."

The regiment was marched to the patch and instructions were given by the old negro man with a voice that quavered with excitement. Then Captain Stafferfield gave the command: "Place hat on left arm, hanging by the chin strap. Hold the hat with left hand. Pick cotton with right hand. By the numbers. Begin."

"Dat's right! Dat's right! The old negro, dancing in joy in his joy in his rheumatism."

"One battery after another swept through the patch. It took just nine minutes to strip the three-acre patch clean."

TO BRING AMERICANS HOME

The British Government has placed nine vessels with a total carrying capacity of 27,750 men, at the disposal of the American Government for the transportation of troops home. These vessels are the Coronica, Adriatic, Milwaukee, Celtic, Canopic, Saxonia, Pamounia, Cedric and Orca.

In addition, it is announced, the Olympic, Mauretania and Aquitania, three of the largest British troop ships, will bring additional American troops home during February.

A REMEDY NEEDED

A SPEAKER at the recent Social Welfare Congress pointed out that in the Prairie Provinces alone the census indicates that out of a total population of 1,240,374 recorded there are 47,000 male and 15,000 female illiterates over ten years of age. Over two-thirds of these illiterates are foreign-born. There are 10,225 persons, over eight per cent, of the total population of Canada between the Lake of the Woods and the Rockies, who cannot speak the English language. It is needed, accordingly, that conditions be so common in public school for all, the universal use of English as the language of instruction and compulsory attendance.

Hon. William H. Taft

A DRY UNITED STATES

THE days of "booze" are numbered in the United States. So the recent vote has ratified the Federal constitutional amendment that it can no longer be contended that the veridical is a national one. East, West, and North are almost as solidly prohibition as the South.

After July 1st next the United States will be permanently under "bone dry" prohibition, as the war-time measure, which goes into effect on that date, will hardly expire before the constitutional amendment becomes operative in January, 1920. A "dry world" is now the aim of the prohibition forces.

Hon. William H. Taft

Ex-President of the United States, who visited Toronto during the week of the Red Shield Drive. Mr. Taft was much impressed with the enthusiasm of the citizens in connection with the drive and expressed himself very favorably regarding the Army's Work.

that 160,000 had already been arranged for on financial terms agreeable both to the local authorities and the Local Government Board, and it was hoped that the remaining 340,000 would come along very fast. It was anticipated that these houses would cause a great deal of competition in subsidiary trades, such as house furnishing and fitting, and Sir Eric hoped that they would be able to assist in the reconstruction of national industrial life.

LONG AIR TRIPS

THE British Air Ministry is organizing a flight in the near future from London to Cape Town, a journey of 5,500 miles, by airplane, and of 5,800 miles if hydro airplanes are utilized, according to the Daily Chronicle, which says that already most of the preliminaries have been worked out and that parties of surveyors are in Africa locating likely places at which to erect necessary stations for overhauling and repair when necessary and at which supplies can be taken aboard.

AMERICAN OATMEAL

SUMMARY of the American oatmeal industry lately announced by the United States shows the increasing extent to which oats are being used as a human food. Practically the entire output of oatmeal and rolled oats in the United States is produced by seventeen mills.

POINTED QUESTIONS

Are you fighting the forces of evil to the extent of your power?

Do you realize that the servant of Christ is not only called to be a Saint but a Soldier?

Will you not "take the field for Jesus"?

PARS OF INTEREST

THE Isle of Oahu produces a becoming important producer of iron, copper, and other ores, as eleven miles have been located. Argentina has splendid prospects in telephone and telegraph wires heavy enough, when wet with dew to cause short circuits.

WHAT'S DOING ROUND THE WORLD

THE British Government's plan for building half a million houses is being carried out at a good rate. Sir Eric Giddens, recently announced

YOUNGEST GENERAL
BRIGADIER—General Harold MacDonald, C.M., D.S.O., who ranks very low as a live stock producer in comparison with other nations. Calculations based on the number of cattle to the acre of land in farms show that while Holland has 29, Denmark 25, Germany and Great Britain 16, Canada has 12.

In the matter of hog production there is the same thing observed. The figures are as follows: Denmark 25, Holland 19, Germany 14, United States 8, while Canada comes last with only 2. When it comes to sheep we are also last, the figure being as follows: Australia 5, Great Britain 5, Italy 2, Argentina 15, while Canada only has 2.

It is pointed out in the pamphlet that there is a great opportunity before Canadian live stock men for development of the industry.

OCEAN FREIGHT RATES

THE first indications of a return to normal in trans-Atlantic shipping are seen in the reduction of ocean freight rates on certain staple traffic and the releasing, by the British Government of a certain amount of space for commercial cargoes.

Rates all round show a considerable reduction, and the indications are that by the time the season opens again in the port of Montreal, freight rates will have been materially reduced. Three months ago the rate on general cargo was \$8.50 per 100 pounds. It now stands at \$3.50 per 100 pounds.

CHINESE MAIL SERVICE

IN a little more than twenty years China has built up a national postal system which is one of the best and cheapest in the world. This has been done in spite of extraordinary difficulties, due not only to the vastness of the population and territory served, but to the fact that in recent years the monarchy has given place to a republic, and several provinces have declared their independence. Regardless of revolutions, the service has been maintained. Since there are only about 6,500 miles of railway carrying mail in China, a big part of the transportation is done on boat lines aggregating 21,600 miles, and by courier lines, which are 143,000 miles. Snow sleds, wheelbarrows, carts, pack animals, rickshaws and bicycles are all employed in the service. The system has features both picturesque and hazardous. To-day in the large cities there are as many as twelve mail carriers in the system, while local delivery requires a stamp worth one-half cent, and for domestic delivery a stamp worth one cent.

SONGS OF SALVATION

I'LL STAND FOR CHRIST

Tune: "I'll Stand for Christ," 244; S.B., 595.

In The Army of Jesus I've taken my stand,

To fight 'gainst the forces of sin,
To the rescue we go
Satan's power to overthrow,
And his captives to Jesus we'll win.

Chorus

I'll stand for Christ, for Christ alone,
Amid the tempest and the storm,
Where Jesus leads I'll follow on,
I'll stand for Christ alone.

We go forth not to fight
'Gainst the sinner, but sin,
The lost and the outcast we love;
The claims of our King
Before them we bring,
And we urge them His mercy to give.

Jesus pointed our race,
And He died in our place,
To save a lost world He was slain;
But He rose and now lives,
And His pardon He gives
Unto those who will call on His name.

ONLY A STEP

Tune: "Only a Step," B.J., 368; S.B., 43.

Only a step to Jesus!
Then why not take it now?
Come, and thy sin confessing,
To Him, thy Saviour, bow.

Chorus

Only a step, only a step;
Come, He waits for thee;
Come, and thy sin confessing,
Thou shalt receive a blessing;
Do not reject the mercy
He freely offers thee.

Only a step to Jesus!
Believe, and thou shalt live:
Lovingly now He's waiting,
And ready to forgive.

Only a step to Jesus!
A step from sin to grace;
What has thy heart decided?
The moments fly apace.

Only a step to Jesus!
Oh, why not come and say—
"Gladly to Thee, my Saviour,
I give myself away!"

OUR QUESTION BOX

If you are in doubt or difficulty in regard to spiritual matters, write to the Editor of "The War Cry," Albert Street, Toronto, Ont. We are here to help you. We shall be pleased to do our best to obtain for you of our readers any information they may need. Write now!

E. B.—You are not called to a priest life in the sense that you will be free from mistakes of judgment and the limitations of human nature and incomplete knowledge, but all are called to live holy lives in the sense that with human nature and motives cleansed by the working of the heart of God the Holy spirit, there freedom from inward tendency to give way to temptation, and liberty to continually and naturally do what is known to be right. To obtain this cleansing there must be an earnest confession of oneself to do the will of God as well as revealed, and a willingness to give up not only all that is clearly wrong, but that which is doubtful or in any way hinders spiritual growth. Ask your Officer to get for you a copy of "Obedience and Regulation for Soldiers of the Salvation Army," and of "A Ladder to Holiness" by the Army Founder. Both contain simple and clear teaching on this subject.

A. C.—A corporal asks for prayers that a dear one may not find trouble with habits but become devoted to the winning of others for God.

INTENTIONS

Officers, Soldiers, or friends having money to invest could, with good advantage, lend it to The Army for use in the Salvation War. Loans are utilized strictly for investment in Army property and other equally secure capital, and a high rate of interest is paid for the use of the money. Withdrawal, if necessary, of the whole or part of the loan, can be conveniently arranged without trouble or penalty at any time. Names of investors are kept absolutely private.

A communication addressed to Commissioner Sowton, 203 Confederation Life Building, Winnipeg, will receive the clearest attention.
